Special Management Considerations: (Section 6, LMUs)

No Relevant Special Management Considerations were listed.

Affected Values and General Management Directions (GMD): (Section 5)

Only include values identified in LMU. If no GMDs exist or are relevant, do not include in this table.

Ecological Resources:	Corresponding GMD:
Porcupine Caribou (movement)	2.3.1 Avoid or reduce activities in significant wildlife habitats during important biological periods (e.g., utilize timing windows or limit activity when caribou are in the area)
Heritage, Social, Cultural Resources:	Corresponding GMD:
Current Community Use Area (along Dempster Highway)	5.1.3/6 .3.2 Avoid or reduce activities in significant heritage and current community use areas during important seasonal use periods (e.g., limit activity when caribou are in the area).
Economic Development:	Corresponding GMD:
Dempster Highway Corridor	No relevant GMD
Eagle Plains Lodge important tourism service centre.	No relevant GMD
Highest oil and gas potential	No relevant GMD

Plan Recommended Best Management Practices: (Section 5 following each value)	
Surface Disturbances	<ul style="list-style-type: none"> • The size, intensity and duration of all surface disturbances should be reduced. • Native endemic plants should be used for active reclamation of disturbed sites.
Wildlife	Use appropriate operational timing-windows in significant wildlife habitats to minimize activities, whenever possible, during periods of wildlife use.

Additional Analysis or Comments:
